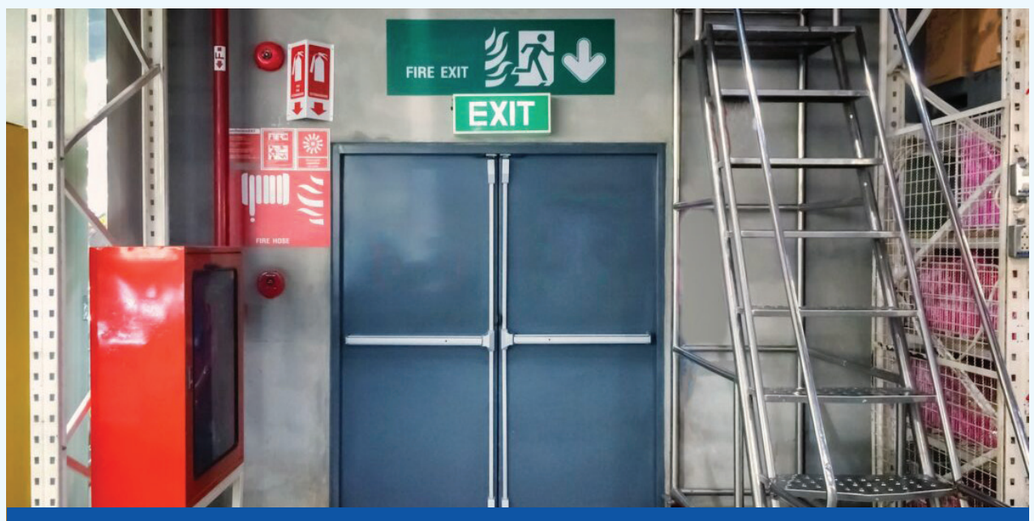
Safe Storage Guidelines



Keep exits and emergency routes clearly visible and unobstructed.

Place heavy items at the bottom and lighter ones on the top.

Avoid random stacking.

Keep storage areas away from sources of fire, heat, and electricity.

Secure shelving units firmly to prevent tipping.

Ensure aisles and walkways are clear of obstacles.

Maintain at least 0.5-meter of clearance between stored items and the ceiling.

Store hazardous materials in designated areas, separate from other items.
